# ARTICULATED

The design of our Articulated Wall Light is based on the traditional lighting used in major British art galleries and museums in the first half of the 20th Century.

Handmade in our Foundry using cast and sheet brass, it features easy adjustment for angle, projection and light scatter. It can be ordered ready for mounting to a rail (as shown) or for fixing to a wall using an optional back plate.

We can also make the lamp to a bespoke width.

Shown here in Antique Brass but available in any of our standard finishes.
